

Name: Alycia (Onderdonk) Nagle
Phone: 585-760-4716
Address: 355 Palmer Rd. Churchville, NY 14428

How many years have you lived in the district: A total of 28 years.

What is your Occupation? Currently I am Project Director managing a training team. My career began as an RN and transitioned into training and management of people and projects. This marks my 15th year with URM.

Do you have children attending Churchville-Chili schools? Yes.

Please list your contributions to or involvement in the community and the community service you have done.

Both my husband and I are Churchville-Chili (CC) alumni. My husband continued his education locally at Roberts Wesleyan College and we both come from families that are still established in the community. We moved back to Churchville so our children can experience everything that we value here.

In the past, I was involved and shaped by CC academics, athletics, band, chorus, and community service through Honor Societies. Currently, I'm involved in Chili Rec. Running Crew. Our two older girls are students at CES, so we attend school and district events, as well as support school fundraisers and community support efforts. Our girls currently enjoy Girl Scouts and soccer as well. I look forward to getting more involved with the school and community both as a board member and as a parent.

Why do you want to be a school board member?

I am passionate about public education. I feel the exposure, experiences, and opportunity it provides are incomparable, ultimately contributing to the well-rounded development of children. Additionally, I believe school is essential, and the content and methods of teaching are crucial to ensure student's success. Given the past year, I believe it is more important than ever to protect educational best-practices such as in-person learning. While reestablishing standard school practices and related extracurriculars during this pandemic we can't lose sight of other critical matters such as curriculum content.

As a parent, experienced RN, and my background in training and management, I am a well-rounded candidate prepared for this challenging environment. I am diligent and plan to put in the work to learn how the BOE runs so that I can provide thoughtful contributions to the group. I plan to advocate for students and parents working to ensure the students in our district have a well-rounded education and overall positive school experience.

What do you think are the two top issues facing Churchville-Chili schools over the next three years?

Without direct exposure to all board meetings and deliberations, I can't be certain that I'm aware of the most pressing concerns to the district. I would expect that the long list includes:

1. Addressing continued challenges surrounding COVID and its impact on in-person learning, and the health and safety of students and staff.
2. The review and approval of any new curriculum content and staff education materials.
